Environmental Concerns

Some may view climate change as a remote global problem that is beyond the capacity of local government to solve. In Irondequoit, we believe that actions by local government and its citizens and businesses can make a difference. Irondequoit was the first community in the county to adopt a comprehensive energy and environmental policy, which can be viewed on the Town's website.

Environmental Protection Overlay Districts

The Town's zoning code includes Environmental Protection Overlay Districts, or EPODs, which provide an increased level of oversight for development in fragile environmental areas, including steep slopes, woodlots, flood plains, coastal zones, watercourses, and wetlands. If you live or own property in an Environmental Protection Overlay District, please call 336-6015 or 336-6029 for appropriate assistance and approvals before undertaking any construction or site work.

Irondequoit's popular Farmers' Market operates Thursday afternoons from May through October. The Market is located at the Town Hall campus. Vendors sell fresh produce, fruit, foods, and homemade crafts. Free evening entertainment is provided most market days at the adjacent Performing Arts Gazebo.
